

# Bush on 003 Planter

Design Gordon Guillaumier

Technical Information

Extra-large planters as a design tribute to an entirely natural and ecologically sustainable material. Made in high-quality expanded black cork, they are distinguished by balanced volumes and attentively clean lines. With tastefulness and simplicity, three different hour-glass shapes are given three sizes, ready to be used singly or combined harmoniously to host and flatter plants and flowers. Pleasant to the touch thanks to their special texture. Coated on the inside with water-repellent natural rubber, these vases catch the eye as unusual decorative elements with great character for green living.
