

Filet 002 Horizontal Screen

Design unPIZZO

Technical Information

FILET is the new outdoor screen designed in collaboration with UnPizzo, a perfect synthesis of contemporary craftsmanship and design. Available in two versions, horizontal and vertical, FILET is conceived to define and articulate spaces with lightness, acting as a delicate filter between interacting areas. The hand-made weave combines belts of different sizes and colors, which can be monochromatic or two-tone. Their overlapping on the metal frame creates a three-dimensional pattern of great visual impact, where solids and voids, shadows and transparencies alternate according to a precise design. Supported by stainless steel feet that guarantee stability, FILET features an external structure in natural Iroko wood, while the inner frame is in smoke-colored powder-painted aluminum. A connection kit in the same finish allows two modules to be aligned and joined.

TECHNICAL INFORMATION

DESCRIPTION
Vertical screen for outdoor use.

STRUCTURE
Iroko and powder coated aluminium.

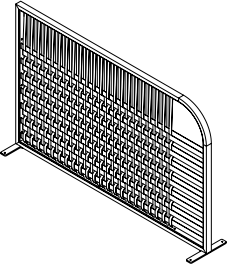

BELTS
Polyester or acrylic (belt 45 and 25 mm).

FEET
Powder coated stainless steel.

WEIGHT
Structure 25 kg

STORAGE COVER
Not available.

DIMENSION
L 192 × P 36 × H 123 cm
W 75" ⁵/₈ × D 14" ¹/₈ × H 48" ¹/₂
