

Harp 368 Lounge Chair

Design Rodolfo Dordoni

Technical Information

The classic stringed seat finds a new design dimension in this version of outdoor chairs, also declined in other elements, where polyester trails its infinite filaments around a tubular metal structure in one continuous outline; lightness is given by air vibrating through the cords which celebrate the craft manufacturing in the outdoor furniture making, shaping the seat and the back of this collection; neutrality is ignited by cushions, structures or ropes of different thickness and colours. The elegance of the silhouette makes each item unique extremely recognizable even when combined with other designer furniture.

TECHNICAL INFORMATION

DESCRIPTION
Lounge chair for outdoor use.

STRUCTURE
Powder coated stainless steel.

CORDS
Polyester or acrylic (cord Ø 3 mm).

CUSHIONS
Standard or hydro draining.

WEIGHT

Structure	7,5 kg
Cushions (seat)	1 kg
