

Mistral 101 Sofa

Design Rodolfo Dordoni

Technical Information

MISTRAL collection includes outdoor sofas and sunloungers in teak wood, shaped with strong and geometrically perfect lines; born from the synthesis of the original idea of NETWORK, MISTRAL abandons the accessory elements such as the compartment for objects to leave space to the essence of the form. The design sofas reveal their essential silhouette highlighting the meeting between the materiality of the teak and the softness of the belts with a cotton finish, like warp and weft of a fabric, in an incessant game of empty and full, softened by cushions.
