

# Norma 003 Extension Module

Design Rodolfo Dordoni

Technical Information

NORMA is the new outdoor kitchen designed by Rodolfo Dordoni. A truly new product for the company, it ventures into the world of cooking.

NORMA is inherently modular and versatile. The independent structure makes it adaptable to a small outdoor corner or a large space with well-structured furnishing solutions.

The collection is composed of a sink module and a cooking module available with fixed feet or wheels. In addition to the two modules, a peninsula can be attached to the sink module offering an additional preparation space that can be extended to become a suspended counter for dining with the simple addition of a bar stool.

The optionals include a refrigerator to be stored under the sink module, stainless steel fry-top plates and larch-wood cutting boards that fit perfectly on the worktop.

## TECHNICAL INFORMATION

### DESCRIPTION

Extension module for 002 sink module.

### STRUCTURE

Powder coated stainless steel.

### TOP

Sintered stone (Lapitec®)

### WEIGHT

Structure 44 kg

### STORAGE COVER

Available.

### DIMENSION

L 145 x P 70 x H 95 cm

W 57"  $\frac{1}{8}$  x D 27"  $\frac{1}{2}$  x H 37"  $\frac{3}{8}$

## Materials

## STRUCTURE

Metal  
Smoke

Lapitec®

## ACCESSORIES

NORMA 013 / tray - cutting  
board (larch 5 x 74 x 40)
