

# Piper 120 Chair

Design Rodolfo Dordoni

Technical Information

The PIPER is a vast collection for exclusive outdoor furniture. Its many elements furnish every instant of outdoor living. There is the conviviality of sofas for many guests; the privileged relaxation of a sun lounger; the practicality of a tabletop perched on a precious frame. The materials are loyal mainstays: painted aluminium, robust belts and Batyline. The comfort offered by the outdoor sofa system and the generously sized sun loungers expands to the dining area: the extendable outdoor table combines a wide variety of stackable dining chairs and armchairs available in a wide range of different materials and colors, including teak wood for the structures. Padded belts are available for certain models of chairs.

## TECHNICAL INFORMATION

### DESCRIPTION

Chair for outdoor use.

### STRUCTURE

Powder coated aluminium.

### BACKREST

Polyester or acrylic belts.

### SEAT

Teak or polyuretane resin(HiREK®).
