

Stem 013 Bar Table

Design Rodolfo Dordoni

Technical Information

STEM is a line of passe-partout outdoor tables a product that doesn't need to be explained and that can be inserted transversally in any environment, from contract areas to domestic flats with a metropolitan style. The characteristic central leg in steel supports a round or square top, in teak or grey coloured high pressure laminate. For the outdoor bar furniture, or for in and out contemporary settings, STEM also offers the bar table version.
