

Tint 002 Rug

Design Maria Gabriella Zecca

Technical Information

The tastefully soft colour palette, achieved through the interweaving of tinted yarns and completed by a fringe on the 3-meter side, derives from the collection design concept: creating a rug that stylishly blended with the natural surroundings of the outdoors, yet looked equally good in certain indoor spaces. TINT perfectly fits in spontaneous continuity the external environment, as if naturally covers the ground in perfect dialogue with the furnishings of the house.
