

Triptyque 002 Rug

Design Roda Studio

Technical Information

Handmade on looms using synthetic fibre yarn, the TRIPTYQUE outdoor rugs offers the highest performance, while maintaining a soft and elegant aspect. TRIPTYQUE is characterized by the subdivision into three identical portions, punctuated by the harmonic alternation between the yarn and the warp, obtaining a motif that evokes the sartorial hemstitches. This collection of design rugs is available in three different colours, Stone, Natural and Brick. The intertwined fringes that close the warp always characterize the three-meter side.

TECHNICAL INFORMATION

DESCRIPTION
Rug for outdoor use.

STRUCTURE
100% polypropylene.
Hand-woven on loom.

WEIGHT
Structure 34 kg

STORAGE COVER
Not available.

DIMENSION
L 400 × P 300 cm
W 157" ½ × D118" ¼

Materials

POLYPROPYLENE

Natural

Brick

Stone
