

Zania 080 Table

Design Roda studio

Technical Information

ZANIA is a collection of chairs and tables for outdoor use with a contemporary design that naturally integrates into contract spaces, such as hotels or restaurants, as well as into the most diverse contexts thanks to its small dimensions and big functionality. Consisting of a coffee table, a bar stool and a stackable chair with armrests, ZANIA is made of FSC-certified Iroko wood, a timber with a warm tone that is durable and extremely resistant to moisture. The design of ZANIA family is characterized by slatted surfaces and legs with rounded edges, both for the table and the chair.
